

### ELEMENT DATA

- |                                      |                                  |
|--------------------------------------|----------------------------------|
| 1. Filtration Rating :-              | $\beta_{10} \geq 200$ to ISO4572 |
| 2. Temperature Range :-              | Up to 120°C                      |
| 3. Element Pressure Drop Factor :-   | TBD                              |
| 4. Differential collapse pressure :- | 6 bar                            |
| 5. Materials of Construction         |                                  |
| Hardware :-                          | Aluminium Alloy                  |
| Media:-                              | Organic and Inorganic Fibres.    |
| Fabrication Method:-                 | Resin Bonded                     |
| 6. Estimated Mass :-                 | 194g                             |
